A PAMERINDO INDONESIA TRADE EVENT

ELECTRIC, POWER & RENEWABLE ENERGY INDONESIA 2013

The 16th Series of Power Generation, Renewable Energy & Electrical Equipment Exhibitions

4 - 7 September 2013

Jakarta International Expo,
Kemayoran Jakarta - Indonesia

Supported by:

Organised by:

www.electricindonesia.com

“This year the second time our company has participated in Electric Indonesia. It has given us excellent results, we received some orders and more people got to know about our product. It was good decision to joint the exhibition.”

Erni Mueggenburg,
Office Guascor /
Multico Global Enviro
Pte Ltd

Indonesia

Indonesia has emerged as a rapid growing Asian economic powerhouse, and its international profile continues to grow with its participation in the G-20 and other international economic forums. Indonesia's growing leadership role in the global economy forms a strong ground for building and expanding international trade and investment ties. To allow for that Indonesia has freed up most of its international investment laws to encourage direct foreign investment.

The amount of money allocated to develop infrastructure in Indonesia is vast, and is estimated to reach US\$194.7bn with US\$73.3bn of that specifically allocated to developing power and energy infrastructure (G20).

With the government implementing 11 key reforms to boost foreign investment and promote growth through streamlining the process of starting a business in Indonesia, foreign direct investment (FDI) is predicted to reach US\$22.5 billion in 2013.

Very good and interesting exhibition which shows many opportunities for future business in the electrical power market in Indonesia. We will come back in 2013.

Benjamin Fronhofer, Sales - Man Truck & Bus AG

One Event - 3 Key Shows

Power Indonesia 2013

The country's rapid economic growth has resulted in power demand in the country increasing by 7% each year. Even higher demand is anticipated in the future with an annual growth rate of 9.2 % expected to continue until 2019.

Indonesia alone holds 40% of the world's total geothermal reserves, however currently only less than 4% is being developed, leaving the sector wide open for growth.

Renewable Energy Indonesia 2013

Rising coal and oil prices and the commitment to green technology are driving the government's national energy policy to increase the use of natural gas and renewable energy recourses. With 55% of new production being slated towards renewable power generation, total private

sector investments by IPPs are expected to reach US\$ 11.11billion by 2014.

The government of Indonesia is committed to reducing greenhouse gas emissions by 26% by 2020. In addition the Clean Technology Fund (CTF) Investment Plan for Indonesia proposes co-financing of US\$400 M to support Indonesia's goals of providing 17% of total energy use from renewable energy by 2025.

Electric Indonesia 2013

The Indonesian government is projecting electricity demand to increase by 9.5% annually for the next five years. A substantial portion of the growing demand will come from continued electrification as traditional wood, charcoal and kerosene energy sources are replaced by electricity. National electrification rates are projected to hit 93% by 2025.

“This has been so far the best show ever held, while Indonesia continues to grow. Well done!”

Titik Liutama, Director - GUNA ELEKTRO

Exhibit Profile

- Architectural, Commercial & Office Lighting
- Automation & Control Equipment
- Batteries
- Biomass
- Boilers
- Bus Bar Systems
- Cabinets and Enclosures
- Cables, Cable Trays & Circuit Breakers
- Capacitors
- Cogeneration
- Compressors
- Conductors
- Connectors/Connecting Systems
- Control Systems
- Electrical Components
- Electrical Distribution & Transmission Equipment
- Emergency, Industrial Lighting
- Energy Efficiency and Conservation
- Energy, Facility Management Systems
- Energy Recovery
- Fans, Blowers & Accessories
- Fire Prevention Equipment & Systems
- Fuses
- Gen Sets – Gas, Diesel, Bio-fuel
- Geothermal
- HVAC Equipment & Accessories
- Hydro Power
- Installation Equipment
- Intelligent Building Products & Systems
- Junction Boxes
- Landfill Gas
- Management and Maintenance Systems
- Meters and Metering Devices
- Photovoltaics
- Plugs and Sockets
- Power Generation Equipment/Generators
- Power Supplies/Batteries/UPS
- Relays & Converters
- Solar Thermal
- Specialty Fixtures & Equipment
- Switches/Switchboards/Switchgear
- Testing & Measurement Equipment
- Transformers
- Trunking & Trunking Systems Water
- Treatment & Conservation Products & Systems
- Wind Energy
- Wave & Tidal Energy

55,552 industry
professionals visited the Energy
& Mining Indonesia series 2011.

Show Report

Organiser: PT. Pamerindo Indonesia. A member of Allworld Exhibitions.

Visitors: 15,371 visitors

Exhibiting companies: 637

Exhibiting countries/regions: 43 (Algeria, Argentina, Australia, Austria, Belgium, Brazil, Canada, China, Czech Republic, Dubai, Finlandia, France, Germany, India, Indonesia, Iran, Iraq, Italy, Japan, Kazakhstan, Korea, Malaysia, Nigeria, , Philippines, Poland, Portugal, Russia, Scotland, Singapore, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, The Netherlands Turkey, UEA, UK, USA, Vietnam)

International Group Pavilions: 9 (Canada, China, Czech Republic, Germany, Italy, Korea, The Netherlands, Taiwan, Turkey)

Supported by:

- Ministry of Energy and Mineral Resources Republic of Indonesia
- Association of Electrical Industries of Indonesia (APPI)
- Association of Indonesian Electric and Mechanical Contractors, The (AKLI)
- Germany Ministry Economics and Technology (BMW)
- Mechanical and Electrical Technics Enterprises Association (APTEK)
- Indonesian Electric Cable Manufactures Association (APKABEL)
- Indonesian Electrical Power Society, The (MKI)
- Indonesian Electrical Lighting Industry Association, The (APERLINDO)
- Indonesian Renewable Energy Society (METI)
- Korea Electrical Manufacturers' Cooperative (KEMCO)
- PT. PLN (Persero)
- Taiwan Electrical & Electronic Manufacturer's Association (TEEMA)

Member of: · ASPERAPI - Indonesia Exhibition Companies Association

Conference /Theme: "Mengefektifkan Pengembangan Ketenagalistrikan Nasional yang Mengacu Kepada UU Ketenagalistrikan No. 30/2009"

Hosted by: MKI - The Indonesian Electrical Power Society

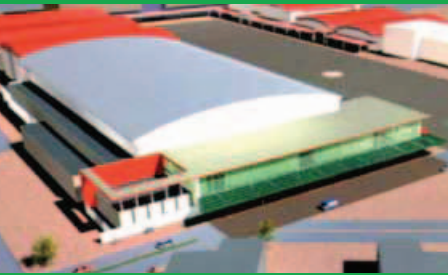

No. of Delegates: 200

Show size: 12,646 m²

Opening hours: Wednesday-Friday: 10.00 - 18.00

Saturday: 10.00 - 17.00

The Organisers

P.T. Pamerindo Indonesia, in conjunction with Overseas Exhibition Services and International Expo Management organise the Electric, Power & Renewable Energy Indonesia exhibition. All are members of Allworld Exhibitions, which has been organising trade shows for over 40 years.

Stand Package Options

Option 1	US\$375 per sqm
Space only	
Allows you the flexibility to build your own stand (minimum 15sqm)	
Option 2	US\$430 per sqm
Space with organiser's standfitting service	
Including floorspace rental, stand construction, carpet, fascia, fluorescent lighting, stand carpet cleaning (minimum stand size 9sqm).	
Option 3	US\$440 per sqm
Space with organiser's walk-on stand package	
The organisers offer two 'walk on' stand packages – one designed for individual companies, the other designed for companies who want to exhibit as part of a group.	
The package offers exhibitors a choice of display aids from which they can choose the most suitable items for displaying their products and services (minimum stand size 9sqm).	
Option 4	US\$160 per sqm
Outside Exhibition Space Only	
Suitable for showing larger exhibits in the open air immediately in front of the exhibition halls (minimum area 36sqm)
